

NESREA – 2008 Realtor Care Day

Project: This dymo group, led by Jean Wright of Guernsey Bank and Monica Holter of Key Properties, had 40 volunteers ready to go at 8:00 a.m. in the morning at the Belt Field Sports Complex, a 32-acre sports park that is used for area youth and adults. It is the only complex that services the entire Johnstown area and is run completely by volunteers and donations.

Items accomplished on the long list of to do's included painting the men & women's restrooms, cutting and putting up new dug out side boards, spreading gravel, dirt and mulch, straightening out a 600 lb. drain, bush hogging areas that had become overgrown, installing gutters on all shelter houses, sealing picnic tables and post on shelter houses, weed spraying around all ball diamonds and fencing and replacing the countertops in the concession stand and one team assigned to cooking lunch for the entire crew.

This group rallied lots of community support, not only through extra volunteers on the day of the project, but through in-kind dollars from community businesses -- who were even calling them to find out how they could participate! Total in kind donations not including CBR's match was a whopping \$5,677.00. This was their first year for participation in REALTOR® Care Day.
